Project Lunarium Coin

Blockchain

Lunarium (XLN)

1. OVERVIEW

▶ The development of the XLN coin started in 2018 in Canada, after an Exit Scam of the Sollarium Coin Project, and since then, our main product is the decentralized market. Thus, users can buy and sell goods with the XLN Asset or carry out private transactions, if they wish.

▶ For Lunarium Coin, the essential elements of intent are wide accessibility in a wholly intuitive way. Encompassing, in its entirety, the determination to reach the general public - regardless of the technical knowledge level.

▶ The Lunarium Blockchain is gonna be evolved to the point to be acquired on the type of exchange between currencies, goods, and services in the world, providing a mild and spontaneous experience for all users.

▶ Lunarium Blockchain will provide a robust, secure, private and completely decentralized network supported by Lunarium cryptocurrency (XLN), while Lunarium Games will develop gaming technologies to be a subsidiary tool for Cryptocurrency's global expansion, targeting usability and dissemination of the Asset.

▶ We will ever continue supporting the development of an ecosystem of applications, gaming platforms (Lunarium Games) and businesses, developed by Lunarium's core team and its community. We focused to be the drivers of the global expansion of the blockchain revolution and games aimed at the usability of cryptocurrencies.

▸ The Lunarium Coin Project will consist of a thriving ecosystem of decentralized, privacyenabled applications and a marketplace that will deliver real-world applications to enable private commerce and new privacy-enabled business models. No permissions are required to use XLN or its applications as there is no centralized authority behind them.

▸ The Lunarium Blockchain core code applications and enhancements are going to be decided by the Lunarium Blockchain Group.. Perhaps, most important to our development and success is our thriving and expanding community. The XLN is structured to be transparently community-managed. The development team is constantly growing through active outreach and recruitment by the core team, as well as proactive ideas, contributions and ofers to help from our community.

▸ We are proud of the large and growing number of followers Lunarium Coin has gathered so far on Twitter, in the Discord group, and Telegram. We are promoting a friendly and engaging environment where the participation and contribution of everyone in the community are encouraged..

1.1 WHAT IS LUNARIUM?

▶ It is a Blockchain project aimed at payment solutions, which seeks to enhance its Holders through Stakes and Masternodes.

▶ Our community is constantly evolving. With the creation of Lunarium Games, we started to develop our gaming platform, where, soon, users will be able to buy our currency and access the games online or download them for their enjoyment. Furthermore, with games interconnected to the Blockchain, it will be possible to earn rewards depending on the player's performance.

▶ Lunarium always aims at friendly solutions for its ecosystem, having as its scope not only to develop its technology to continue advancing but also to become a known and traded currency around the world.

1.2 LUNARIUM BLOCK CHAIN PRINCIPLES AND VIEW

▶ The technological advances of recent years have developed so much value in this new global sector of Crypto Assets, creating opportunities in the fnancial market, unlike any other period in history. Humanity is currently in a paradigm that will recreate the way we communicate, do commerce, and have countless other applications due to the adoption of Blockchain technology.

▶ Nowadays, collecting, tracking, analyzing, and using personal data has become an easy task for public and private entities. Corporations and governments collect our data for a myriad of reasons and the result is everyone's privacy loss.

▶ Sometimes we think, "If I haven't done anything wrong, I have nothing to hide," however, that kind of thinking fails to capture the extraordinary impact our collected data have on us. That information can be used for advertising targets, general censorship, retribution boycotts for maintaining views contrary to the status quo.

▶ In fact, we can see in recent history that:

● Social media has been used to demonetize content, reject ads or ban users who have opinions contrary to those of the media platform.

● Large crowdfunding sites have been accused of political prejudice, allegedly rejecting or removing fundraising campaigns when the causes are deemed unacceptable under the pretext of "not meeting community standards".

● Personal information, including purchasing habits, is used by businesses and governments for purposes ranging from advertising to censorship and boycotts and has often been the subject of massive breaches and cybersecurity theft, in part, because of the many personal information that is in a centralized location.

▶ So many conventional cryptocurrencies on the market, as well as Bitcoin, do not ofer sufcient protection of a person's identity and information, as all transactions are observable and traceable by any given investigator. Those who value their privacy are not adequately protected and are therefore vulnerable to exposure. A privacy-enhanced cryptocurrency is a solution to the problem that Lunarium (XLN) is a viable candidate.

1.3 ESPECIFICAÇÕES TÉCNICAS DA MOEDA XLN

- ▶ Coin Name : Lunarium

- ▶ Ticker : XLN

- ▶ Algo : Quark

- ▶ Coin Type : POS/MN (no POW)

- ▶ Max Block Size : 1 MB

- ▶ Minimum Stake Age : 24H

- ▶ Coin Maturity : 101 confirmations

- ▶ Max Supply : Infinite

- ▶ Port : 44071

- ▶ Block Time : ~ 60 seconds

- ▶ Masternode collateral : 10,000 XLN

1.4 BLOCKCHAIN LUNARIUM BLOCK REWARDS DIVISIONS(XLN)

Input Addresses	→		Recipients	
Address			**Address**	**Amount (XLN)**
PoS			LbpSTLezhu6zxN1bLePPJiuM3D14NMXFGs	2.39995822
			LdnRgTd9r4ZYpCNhDtLymVdxrSY4PV8Ltq	5.60000000

(Example of block reward structure in the Lunarium network. Source: https://explorerxln.xlunarium.com/)

● Every 60 seconds Lunarium Blockchain rewards its holders who keep their XLN coins frozen in the network, either through Stakes or Masternodes, distributing fxed amounts by blocks: from 2.39 XLN for Stakes; and 5.6 XLN per masternodes per block, the more coins holders bet on the network, the more rewards they can receive;

● The investors can view the earnings forecast through the ofcial Lunarium Project website https://xlunarium.com/

2. FUTURE VISION

"Lunarium will make the development of its technologies its "continuous vector for the usability and global adoption of the XLN currency, through trading on its major exchanges; developed platforms and services; and ongoing partnerships."

Por que buscar o próximo?

Se podemos ir ao infinito!

LunaRium

3. ROAD MAP

Q4/2021

Whitepaper Update v1.1

Lunarium Website Update

Blockchain-integrated Lunarium Games Test

Creating a Marketplace v1.0

QT wallet update v1.3.0

Q1/2022

Start of e-commerce games on the Lunarium games site

Launch of Android Lunarium Wallet

Launch of the Lunarium pool

Q2/2022

Launch of the web portfolio

QT v2.0 wallet update

Q3/2022

Launch of Exchange Lunarium

Q4/2022

Marketplace Update v2.0

4. PRINCIPAL CHALLENGES

▶ Be among the leading global Coinmarketcap projects;

▶ Be a project that follows constant evolutions and trends in the cryptography market; and

▶ Promote the global adoption of the XLN currency with the constant development of its Blockchain, Lunarium Games Platform, and the growth of the worldwide community.

5. WHERE TO TRADE LUNARIUM(XLN)

- **https://crex24.com/pt/exchange/XLN-BTC**

- **https://bololex.com/trading/?symbol=XLN-TRX**

5.1 WHERE CAN I USE LUNARIUM (XLN)

- https://masternodes.biz/cryptocurrency/XLN
(payment method for hosting masternodes);

- https://www.coinstake.in/
(Pool to invest in Stakes as a form of rewards and investments);
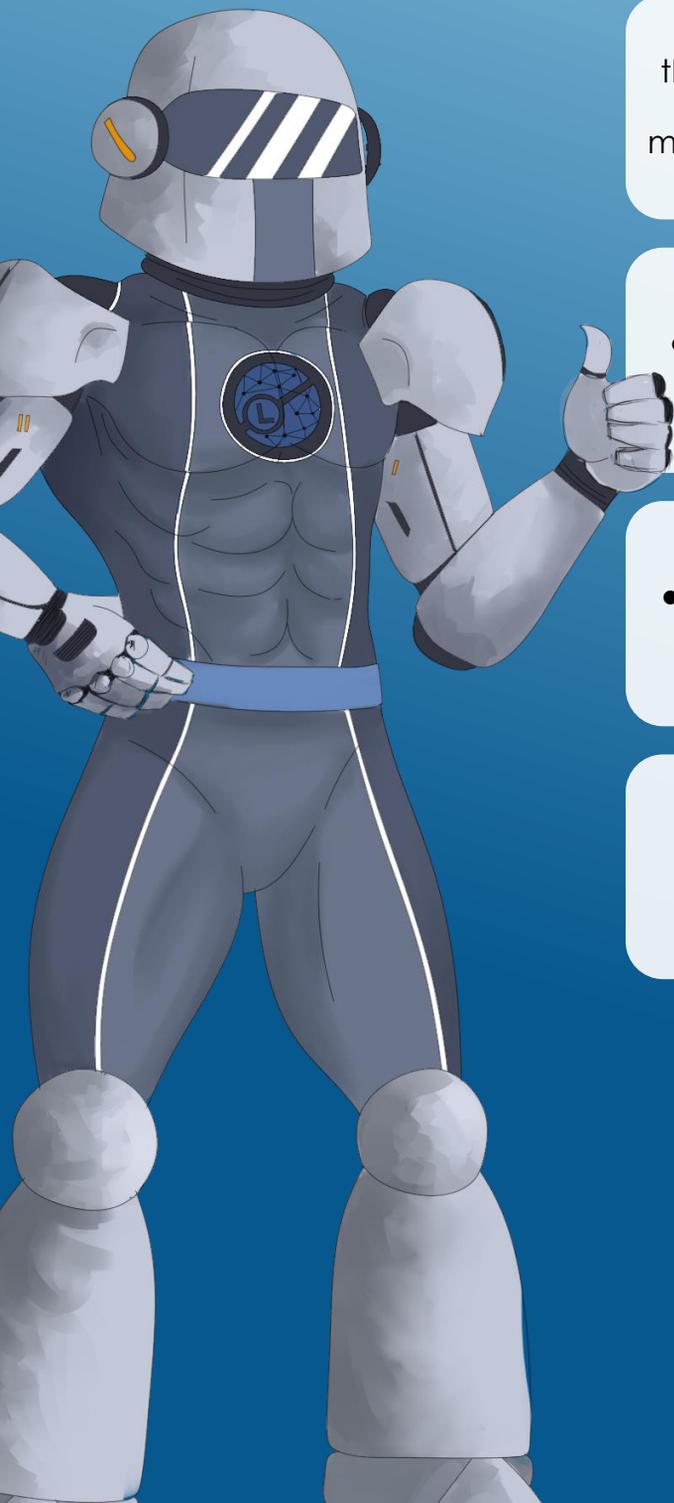

- https://betting.fanaticoscriptos.com
(Betting, buying and investing platform)

● soon you will be able to use your XLN to have fun and/or increase your rewards according to your skills on the Lunarium Games Platform https://lunariumgames.com.br/ (under development); and

● in the future, the Lunarium Community can enjoy its own POOL and its own Exchange in the same access location.

5.2 ADVANTAGES OF INVESTING IN LUNARIUM (XLN)

●possibility of increasing your earnings through the POS mining concept through Stakes and Masternodes, making the mining process cleaner and less aggressive to the environment;

● afordable XLN value with great upside potential;

● currency in constant development and in line with cryptographic trends;

● secure currency with fast transactions and low transaction rates.
