

# *Project Lunarium*

## Blockchain (XLN)

*Whitepaper - September 2, 2022*

Note: Lunarium Coin reserves the copyright to update this white paper at any time. Visit the Lunarium website (<https://xlunarium.com/>) to see the current version of this white paper.

# 1. OVERVIEW

- ▶ The development of the “XLN” coin started in 2018 in Canada, and since then, our main product is the fully decentralized market. Thus, users can buy and sell goods with the asset “XLN”, carrying out private transactions if they wish.
- ▶ Lunarium Blockchain allows secure end-to-end transactions, through a robust network of servers and a link of masternodes capable of providing security and speed in transactions carried out on its block network.
- ▶ Lunarium Blockchain will be a decentralized payment mechanism that can be used in various sectors of economic activities, such as: industry, agricultural activities, commercial, financial sectors for settlement, tourism and retail activities in general.
- ▶ We will develop a Digital Electronic Commerce together with Master Coin partner developers to support a large project supporting Blockchain Networks, Explores, Seeds, Masternodes and Artificial Intelligence for use in Crypto projects.

# 1.1 LUNARIUM BLOCK CHAIN PRINCIPLES AND VIEW

- ▶ The technological advances of recent years have developed so much value in this new global sector of Crypto Assets, creating opportunities in the financial market, unlike any other period in history. Humanity is currently in a paradigm that will recreate the way we communicate, do commerce, and have countless other applications due to the adoption of Blockchain technology.
- ▶ Nowadays, collecting, tracking, analyzing, and using personal data has become an easy task for public and private entities. Corporations and governments collect our data for a myriad of reasons and the result is everyone's privacy loss.
- ▶ Sometimes we think, "If I haven't done anything wrong, I have nothing to hide," however, that kind of thinking fails to capture the extraordinary impact our collected data have on us. That information can be used for advertising targets, general censorship, retribution boycotts for maintaining views contrary to the status quo.
- ▶ In fact, we can see in recent history that:

- Large Banks hold most of the world's financial resources and prevent the decentralization of capital around the world, creating barriers and applying increasingly impacting rates on price formations, combined with taxation by governments around the world.
- The growing polarization of the world impacts the day to day of global trade, preventing free trade between countries.
- Personal information, including purchasing habits, is used by companies and governments for purposes ranging from advertising to censorship and boycotts and has often been the subject of massive breaches and cybersecurity theft, in part due to the much personal information that is in a centralized location.
- ▶ Lunarium "XLN" is an alternative for transactions to be safe, fast and with security of information for its users, with small fees between its end-to-end transactions and with great growth potential with possible global adoption.

# 1.2 TECHNICAL SPECIFICATIONS OF THE XLN CURRENCY

- ▶ Coin Name : Lunarium
- ▶ Ticker : XLN
- ▶ Algo : Quark
- ▶ Coin Type : POS/MN (no POW)
- ▶ Max Block Size : 1 MB
- ▶ Minimum Stake Age : 4H
- ▶ Coin Maturity : 60 confirmations
- ▶ Max Supply : 1.000.000.000
- ▶ Port : 42524
- ▶ Block Time : ~ 60 seconds
- ▶ Masternode collateral : 100,000 XLN

# 1.3 BLOCKCHAIN LUNARIUM BLOCK REWARDS DIVISIONS

The screenshot shows the 'Lunarium Transaction Details' page. At the top, there is a navigation bar with links for Explorer, Masternodes, Movement, Network, Top 100, API, and Claim Address. The main content area displays the transaction details for block # 88585. The transaction hash is 1149afe6e73bb534c8170074e281c469315257893c2245397dfb7b8b7dd0693b. The block hash is e066d74fee9d5535c9b4f57336004e34cf612e870081edd6495b528526d5f653. The transaction has 2 confirmations and a timestamp of Sep 02, 2022 19:10:41 UTC. The input address is PoS. The recipients are:

Address	Amount (XLN)
LYBfJcyFdpd6xVsECzLZN8tU57K8akHLWU	5.00
LiULM726KnW11bTY7jFE8taDpRnADVGgtL	19.00
Le8UrPvpAtWCYPITQw8emHTba8LPyFJgR	1.00

The recipient Le8UrPvpAtWCYPITQw8emHTba8LPyFJgR is labeled as 'Development Budget'.

Explorer: <http://www.explorerrxn.com/>

- Every 60 seconds the Lunarium Blockchain rewards its holders who keep their XLN coins frozen on the network, either through Stakes or Masternodes, distributing fixed amounts by blocks according to the policy of rewards that are variable and updated on its GitHub and Official Website; the more coin holders bet on the network, the more rewards they can receive;

## 2. FUTURE VISION

*“Lunarium will make the development of its technologies its continuous vector for the usability and global adoption of the XLN currency, through trading on its major exchanges, platforms and services developed in a decentralized manner”.*

# 3. ROAD MAP

Q4/2022

- White Paper Update V 2.0
- QT V 1.1.0 wallet update
- Masternode support

Q1/2023

Exchange listing listed on BdexHub

Q2/2023

QT V 2.0 wallet update

Q3/2023

Exchange listing listed on CMC

Q4/2023

*- ecommerce Building for Blockchains Support*

## 4. PRINCIPAL CHALLENGES

- ▶ Be among Coinmarketcap's top global projects;
- ▶ Be a project that follows the constant evolutions and trends of the cryptography market; and
- ▶ Promote global adoption of XLN currency with constant development of its Blockchain, Hosting Platform and growing world community.

## 5. WHERE TO TRADE LUNARIUM(XLN)

- <https://xeggex.com/asset/XLN>

- <https://bololex.com/currency/info/XLN>

## 6. WHERE CAN I USE LUNARIUM (XLN)

MMH: <https://mymasternodes.host/>

lhostmn: <https://ihostmn.com/explorerinfo.php?coin=XLN>

Pecunia: <https://pecuniaplatform.io/coin-stats/lunarium>

(Partner Platforms for Hosting)

Coinstake: <https://www.coinstake.in/>

(Pool to invest in Stakes as a form of rewards and investments);
